1	What are the major changes in ECE course	Watch ECE Update
2	What are the major changes in EE/IN course	Watch EE/IN Update

3. App Support & Platform Guides

All courses are also accessible via our website. Use **Google Chrome** for the best experience on any device.

iOS Setup

iOS App — MyAppx

1. Download the **MyAppx** app from the App Store.
2. Open the app and enter **Organisation ID:** 4531207
3. Watch the full setup guide:
   youtu.be/RhYtDtoUPhU

Windows PC Setup

Windows Desktop App

1. Watch the installation guide:
   youtu.be/__0wNZdPpCE
2. Download link is available at the **bottom of our website** (prepfusion.in).
3. Choose the correct version:
   - Intel chip Mac / Windows PC → **Intel version**
   - Apple Silicon Mac (M1/M2/M3) → **Apple Chip version**

PC Application Troubleshooting

PC APP Issue? Try These Steps

1. **Disconnect** any external monitor connected to your PC or Mac.
2. **Switch** to a different internet connection (hotspot, router, etc.).
3. **Re-download** the correct app version:
   - Intel chip → Intel version | Apple chip → Apple Chip version
4. Download link is at the **bottom of our website**.

General App Troubleshooting

General Fix — Follow in Order

1. Mention the exact issue; attach a **screenshot or short video** along with your exact device & OS (e.g., Windows PC / MacBook M2).
2. **Disconnect** any external monitor.
3. **Log out from all devices**, then log back in on one device.
4. Ensure you have the **latest version** of the app installed.
5. **Switch internet connection** (try mobile data or a different Wi-Fi).
6. Switch browser to **Google Chrome** if using the website.

4. Test Series & AIMT

Fusion Test Series

Complete Test Series Guide

Watch this video for all information about the Test Series structure, schedule, and how to approach it:

youtu.be/inroz60EZMU

For test series doubts and bug reports, watch:

youtu.be/uKWywj2QbfE

AIMT — Placement Test Series

AIMT: Level & Quality of Questions

Get a complete overview of the AIMT Placement Test Series question style and difficulty level:

YouTube Playlist → AIMT Question Levels

5. Offline Video Downloads

Download Rules & Limits

- ✔ Videos downloaded on the **Android app** require a *minimal* internet connection to play (very slow speeds work). Fully offline playback is in development.
- ✔ Downloads are only available on the **Android mobile app**.
- ✘ Older videos may *not* be downloadable due to platform restrictions.
- ✘ **YouTube-hosted** videos cannot be downloaded through the app.

Downloads Not Working?

1. **Re-install** the app *or* log out from all devices, then log back in.
2. **Update** the app to the latest version from the Play Store.
3. Retry the download on a **stable internet connection**.

Thanks for your patience while we improve offline functionality!

6. How to Print PDFs Correctly

CRITICAL — Avoid Adobe Acrobat / Reader

Do not use Adobe Acrobat or Adobe Reader to print out your course sheets or short notes. Doing so can sometimes mess up formatting, margins, or corrupt layered graphic objects native to the export engine.

Always open and print your files directly through a web browser such as **Google Chrome**, **Microsoft Edge**, or **Mozilla Firefox** for perfect layout retention.

Mobile PDF Modification & Processing Workaround

If you need to edit, clean up, or safely save your lecture notes using a mobile device before sending them for printing, use the following processing guide:

Processing Notes on Mobile

1. **Install the App:** Download and install the verified utility app via the Google Play Store: Play Store → OKEN Scanner App
2. **Can open the other app also:** Also you can use the other scanner if it is compatible that does the same job as this app is doing.
3. **Open the Document:** Navigate to your downloaded study PDF file on your smartphone.
4. **Importing:** Select the file and trigger the system prompt. Choose the option **"Save to OKEN Scanner"** / **"Open with OKEN Scanner"** from your system default list.
5. **Save & Clean Export:** Let the engine structure your document layers. Save the fresh copy from inside the application.
6. **Share & Print:** Use this newly optimized, cleanly exported PDF file to forward directly to your local printing setup.
7. **Alternative Browser Workaround:** Open your PDF directly in **Google Chrome** and print from there; instruct your local print shop to do the same to ensure crisp, error-free outputs every time.
